

**BeeRemoval911.com**  
**Blythewood Bee Company**  
**Bee Removal Agreement**

**Home Owner Responsibility**

I authorize Blythewood Bee Company to remove honey bees from my property and to disassemble parts of walls, floors, exterior or any part of my home in his effort to remove the bees from my home or property. I also understand that Blythewood Bee Company will not perform or be responsible for any repairs for the disassembly or damage that occurs during their removal efforts.

I agree to pay a minimum of \$350.00 and no more then \$750.00 for the above services. I understand that this amount could change due to extenuating circumstances. I also understand that I will be notified if this amount should change due to these circumstances prior to the extra work being performed.

I understand that all repairs are my responsibility and that repair to the property should be performed with the understanding that the bees could return to the same location in the future and that all measures to prevent this should be communicated to the contractor used to repair the disassembly or damage done to the structure of the home.

**Beekeeper Responsibility:**

I will perform all removal work to the best of my ability and do my very best to keep the damage to your home to a minimum.

I will remove as many bees and as much comb as possible. I will also advise you (the owner) as to the best way to keep the bees from returning to the same area in the future. I will do everything within my power to remove all the honeybees from the owner's property I do not guarantee that all bees will be moved due to bees still being in the field collecting nectar and pollen. Most bees that return to find the colony removed will disperse within 24 to 48 hours. I will however make a return trip to remove more bees if necessary.
